Engraving

Creating a keepsake that is memorable - to the touch. Hand Engraving is the art of etching your personalizations onto a cherished item of choice, creating a lifelong keepsake. Expanding on her mastery of Calligraphy and Hand Lettering, Cami pays meticulous attention to detail, ensuring that each object is transformed with accuracy and grace. This approach to customization is truly unique, and creates one-of-a-kind treasures that can be passed along for generations.

Hot Foiling & Leather Debossing

Infusing the art of calligraphy into your leather goods and fabrics

Cami specializes in hot foiling, using a unique method to heat a glimmering foil and place it onto a cherished leather good, giving a look and feel of elegance to your keepsake. A similar method is used in debossing, which creates an indentation within the leather craft, without the shine. Both arts are timeless and distinct, creating a one-of-a-kind personalization within your treasure.

Custom Keepsakes

Preserve heartfelt words on treasured possessions

Calligraphy by Cami offers personalization to any item that can be written on, engraved, or hot-foiled. Cami takes her time and understanding of your unique item to create art around your memories. These customizations are also available as handwritten paper products that can be framed or showcased for you or your loved ones.
